- 9. talk.typo3.org**
- 10. Memberships**

TYPO3 v14

Ein neues TYPO3 für Redakteur:innen

v14 im Redaktionsalltag

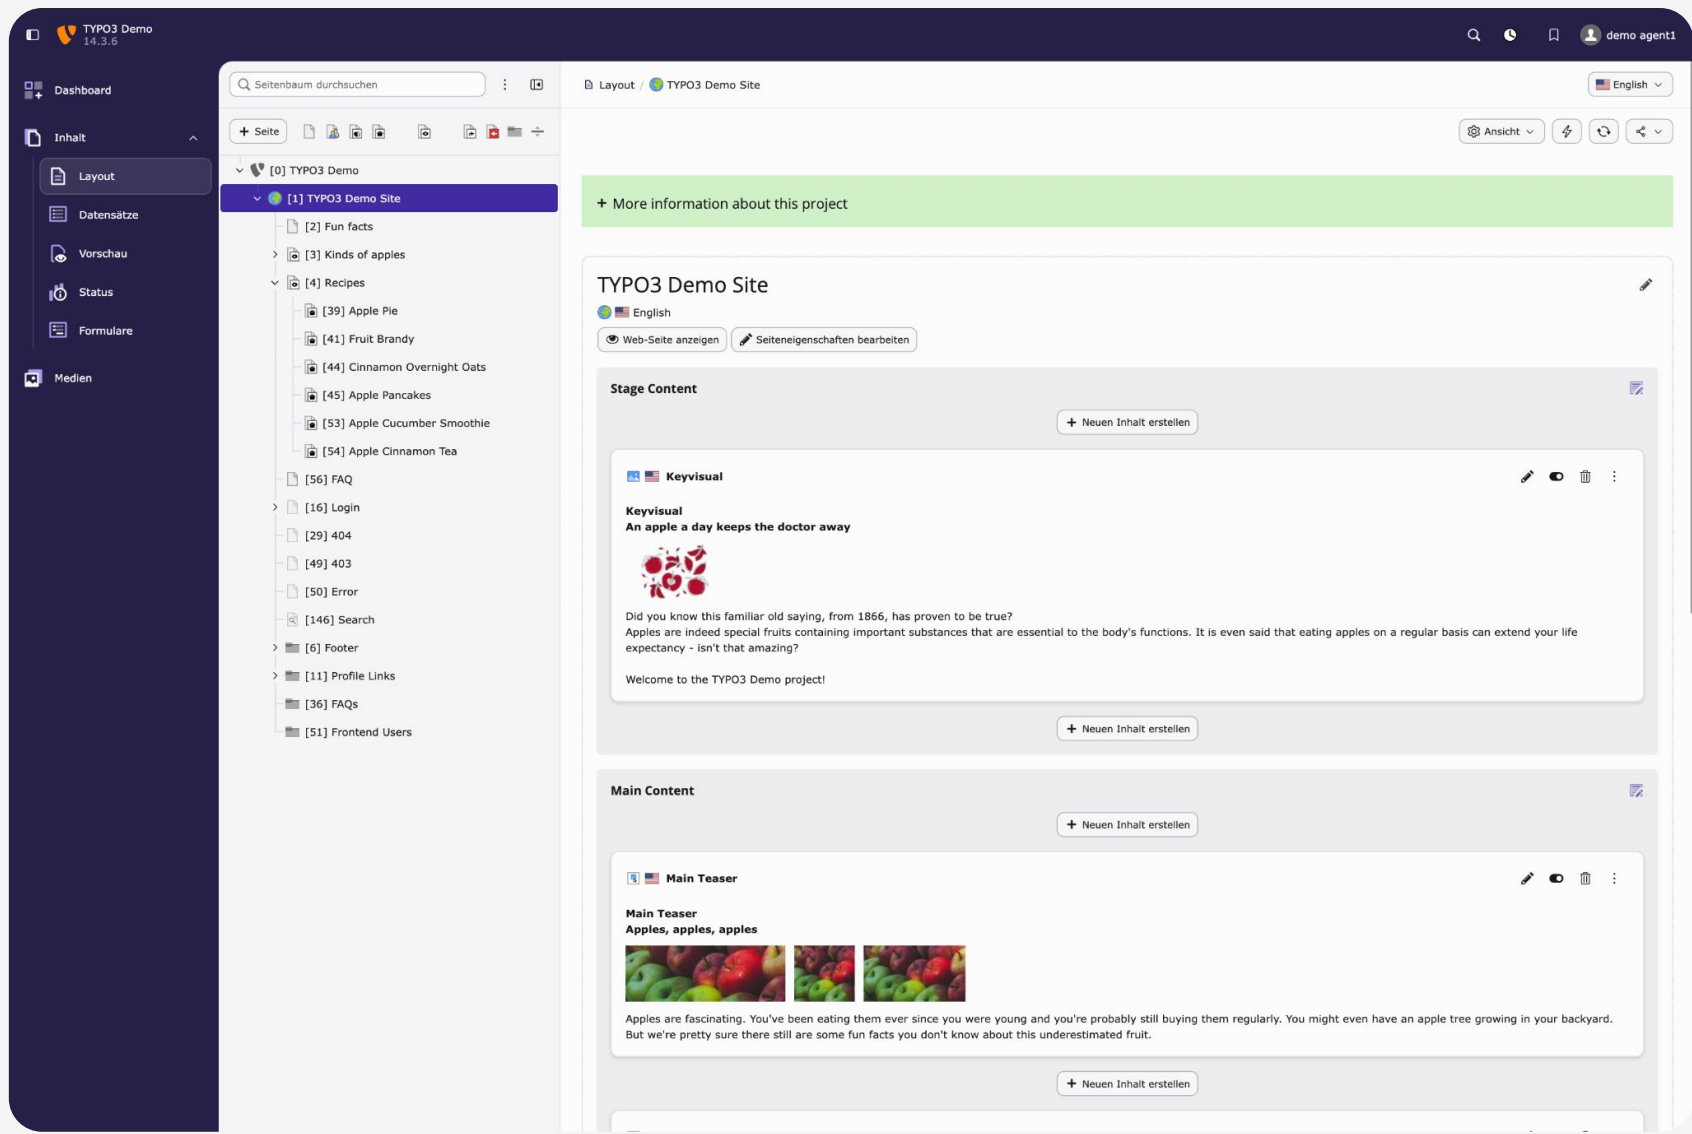

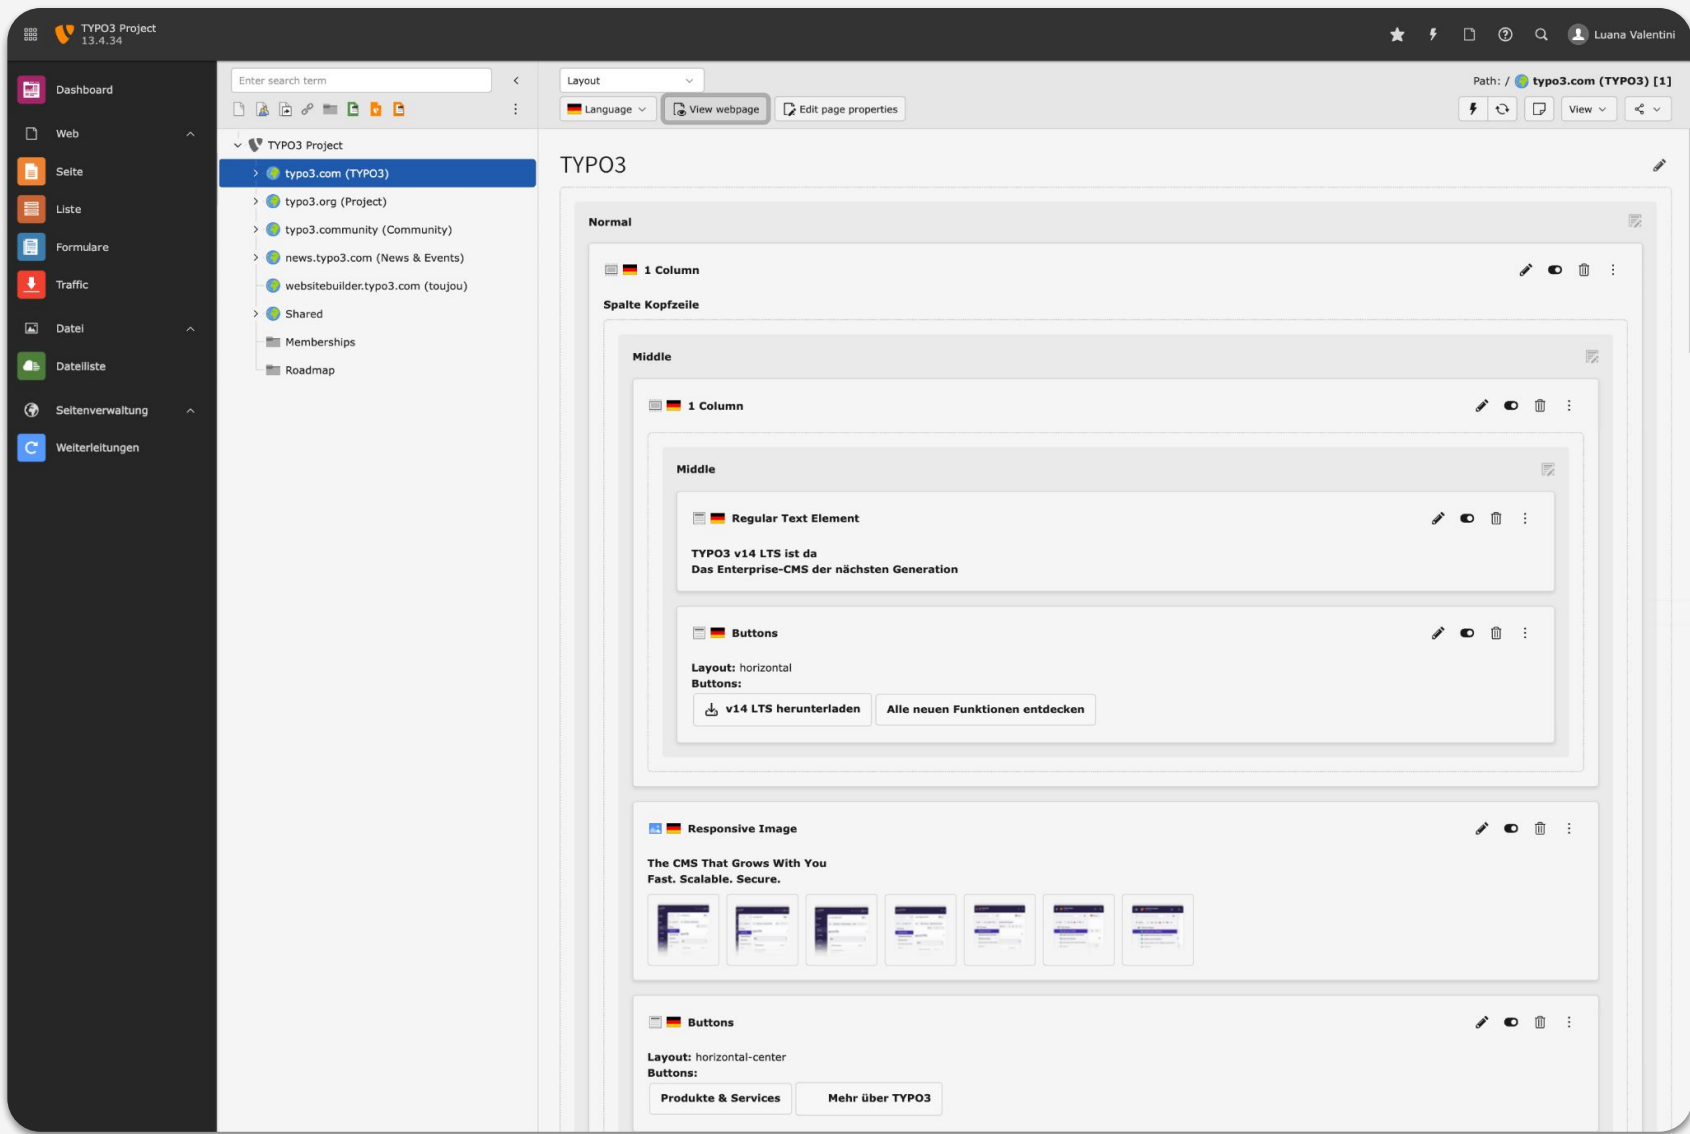

Was davon an Hochschulen ankommt

- **Schneller orientieren** – Wo bin ich, wo finde ich was?
- **Im Kontext arbeiten** – Inhalte bearbeiten, ohne die Seite aus dem Blick zu verlieren
- **Mehrsprachigkeit** einfacher handhaben
- **Links zentral verwalten** – inklusive Shortlinks und QR-Codes
- Weniger Reibung bei alltäglichen Aufgaben

Willkommen zum offiziellen Release-Video für TYPO3 v14 LTS 🎉

In diesem Video erklären Ihnen die Moderatoren Tom Warwick und Kendall Litton, warum TYPO3 Version 14 einen so wichtigen Meilenstein für das Projekt darstellt. Mit einem überarbeiteten Backend, optimierten Redaktions-Workflows und einer modernen technischen Basis bringt v14 LTS neue Dynamik in die Enterprise-Content-Management-Welt.

Redakteure profitieren von einer reibungsloseren Seiten- und Inhaltsverwaltung, inklusive des neuen Kontextpanels und eines intuitiveren Seitenerstellungsprozesses. Integratoren und Entwickler profitieren von Verbesserungen im gesamten Formular-Framework, neuen Funktionen wie Kurz-URLs und QR-Code-Generierung sowie einer zukunftssicheren Architektur. Zusammen mit dem neuen Frontend-Thema Camino bietet TYPO3 v14 durchweg spürbare Verbesserungen.

Als Version mit Langzeitsupport (LTS) erhält TYPO3 v14 LTS:

- Fehlerbehebungen bis zum 31. Dezember 2027

Learn More About TYPO3

What's New in TYPO3 v14?

New Look, New Feel

The new TYPO3 backend features a modernized layout that makes building pages and managing assets easier than ever. Spend less time navigating and more time creating.

- Refined modules for more clarity
- Unified UI with a fresh color scheme and top bar
- Modernized icons and a refined layout
- Interactive breadcrumbs for seamless navigation

A New Editing Experience

Seamless page creation and content management with a backend that's built for editors. From an intuitive structure and design to easy bookmark management and more.

- Edit page properties and content warnings directly in a content panel
- Full-proof Page Creation
- Central Bookmark Management
- Editor-friendly structure

Ready, Camino, Go!

TYPO3's built-in website theme, Camino, lets you bring your ideas to life faster than ever.

- Camino theme to launch standardized websites in minutes
- Self-contained and free of third-party dependencies
- Changeable color schemes
- Pre-built modern typages

New Look, New Feel

A fresh foundation for every project

Welcome to your default website

Streamlining Multilingual

Speak to audiences in their language. Translation has never been easier in the new TYPO3 v14 backend, with more features added to [an already robust multilingual capabilities](#).

- Guided translation workflow
- Side-by-side translations
- Easier third-party integration possibilities

Empowering Your Marketing

TYPO3 v14 unlocks new possibilities for marketers. From QR codes and short URLs to a centralized link hub.

- QR Code Generator
- Short URL creation and management
- Manage all redirects and short links in one central hub

Built for the Web of Today

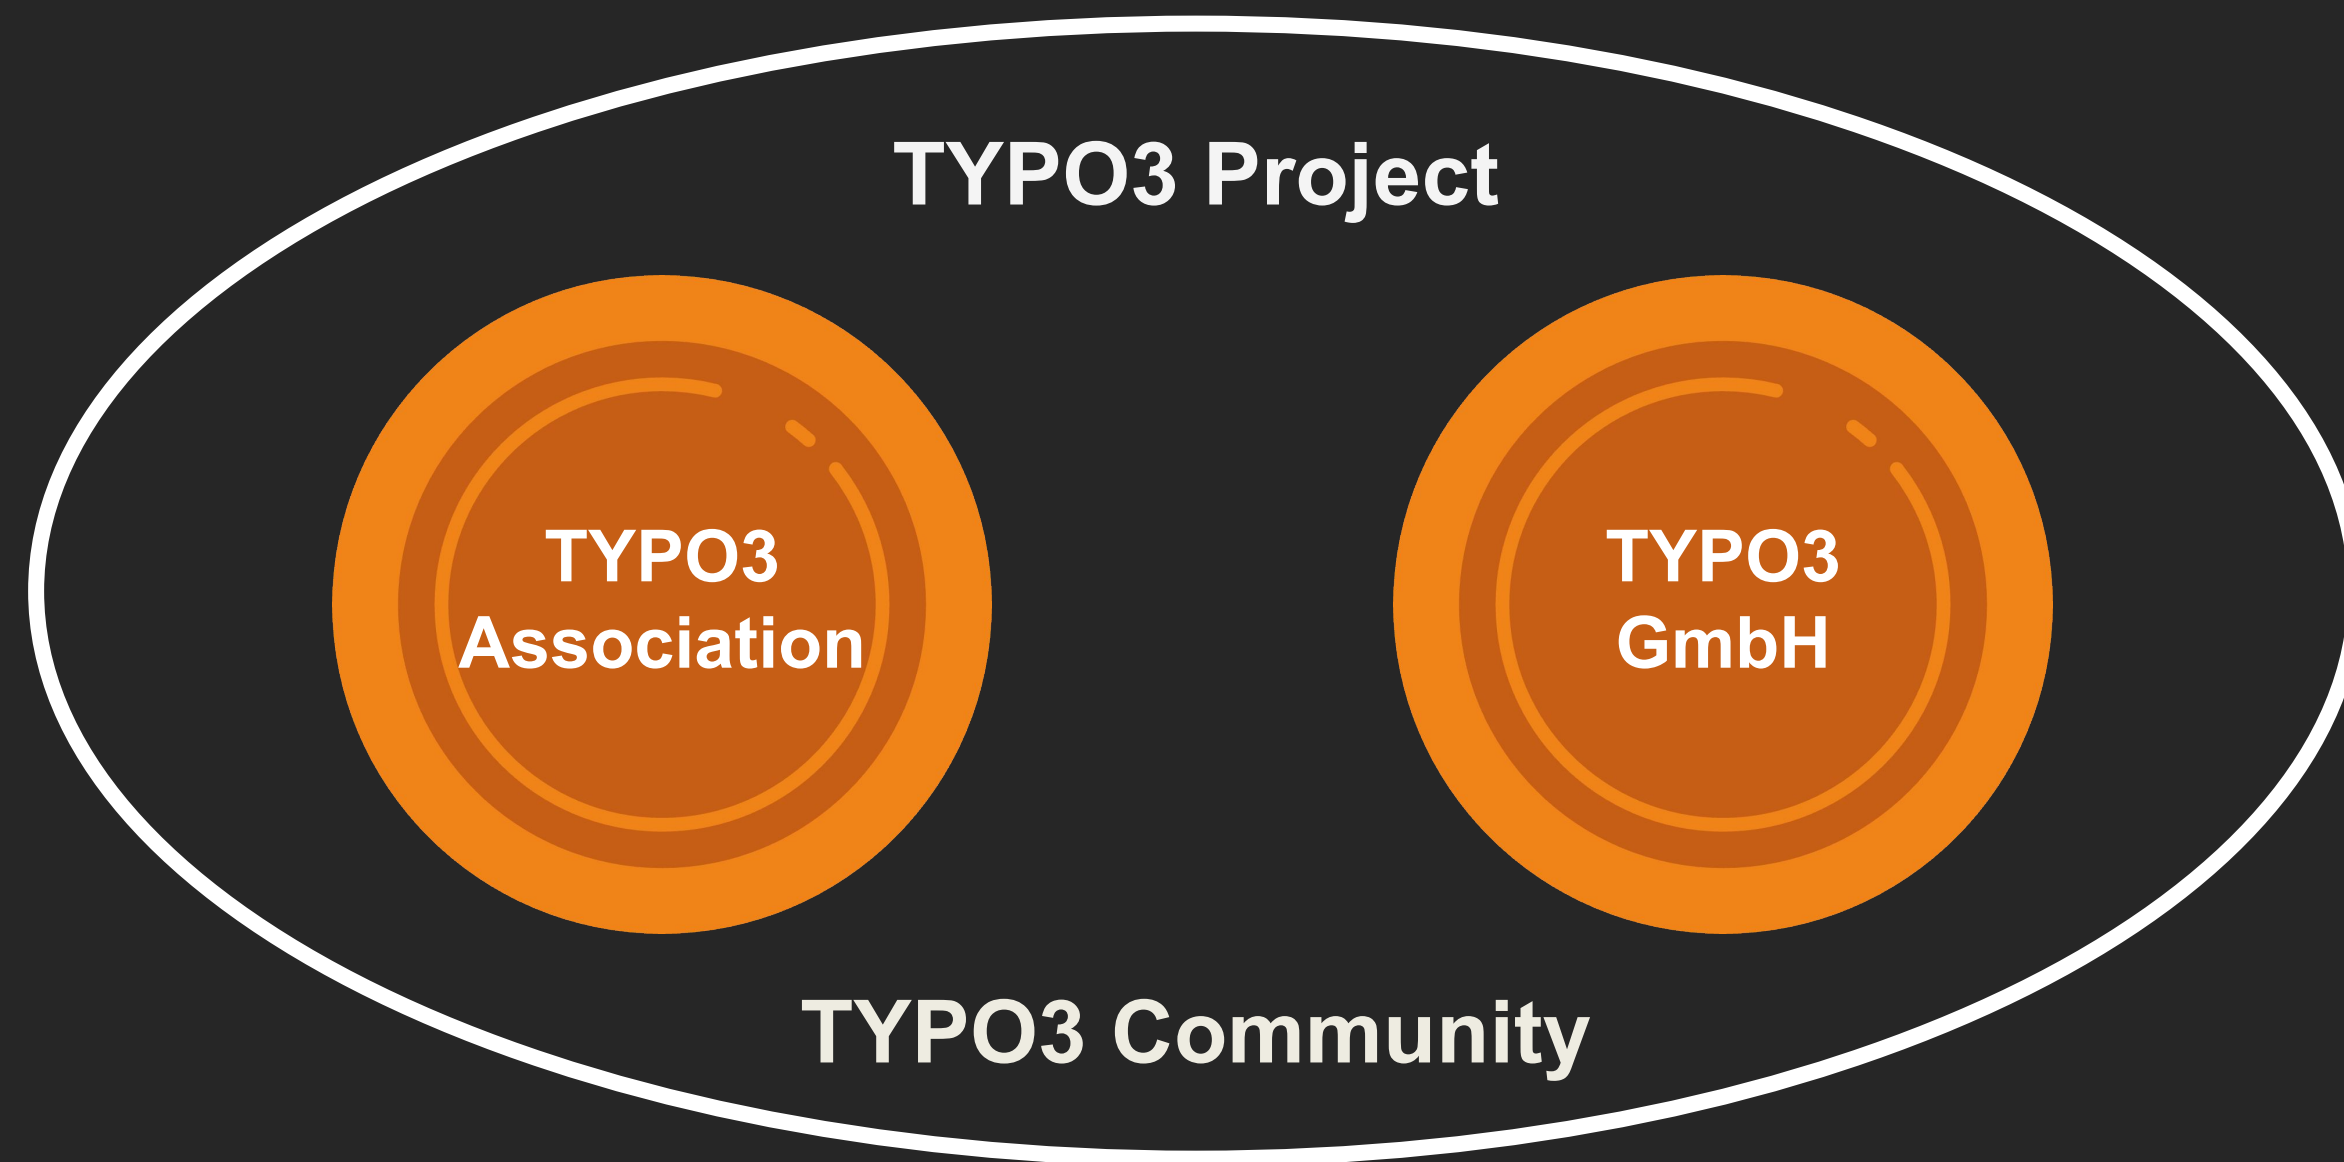

- PHP 8.2+ Required
- Field Engine
- Usage reports to identify and remove unused content fields
- System Resource API

System Requirements & Support Times

- Free community support provided until June 2028
- Extended LTS support available until June 2032 (June 2030 for [official](#))
- PHP 8.2, 8.3, 8.4, 8.5
- MySQL 8.0.37+ / PostgreSQL 15.0+ / SQL Server 2019

Biography

So many hats to wear ;-)

Since 2005 I am in love with TYPO3 and its community. My personal engagement lead into the founding of my company in2code.

As a CEO of in2code I want to ensure, that the TYPO3 project is successful. Therefore I am contributing to the Board of the TYPO3 Association since 2012. Further I am part of the Supervisory Board of the TYPO3 GmbH.

Reach out to me via TYPO3 Slack - @stefan.busemann

The Website Builder Is Dead, Long Live Content Management

By @mathias.bolt.lesniak

AI is making it easier than ever to create a website. That could be bad news for website builders — but it is also an opportunity for content management systems to finally move beyond the website and rediscover why they matter. [Read more](#)

Description

The "TYPO3 CMS Certified Editor" (TCCE) manages pages and content with various page and content element types provided by integrators. The "TYPO3 CMS Certified Editor" creates new pages, restructures the page tree, sets up content properly in the context of TYPO3 and manages the localization of the created pages and content.

This SkillSet is based on TYPO3 version 14 LTS and was created by the TYPO3 Education Committee and TYPO3 GmbH.

CMS Certified Editor 14 LTS

Created on: 08.09.2026

About TYPO3

TYPO3 is an open-source enterprise content management system (CMS). The system offers a wide range of functions out of the box and can be extended by extensions. The software license (GPL) lets everyone access, read, copy, distribute, and modify the source code which is freely available. TYPO3 is well documented at <https://docs.typo3.org>.

Goals:

- I know what TYPO3 is and where I can get further information.
- I know broadly the TYPO3 system requirements.
- I know the TYPO3 vocabulary and can name the essential components.
